SUPA TUNES

The Team:

Supa-Duo (there used to be 4 of us…)
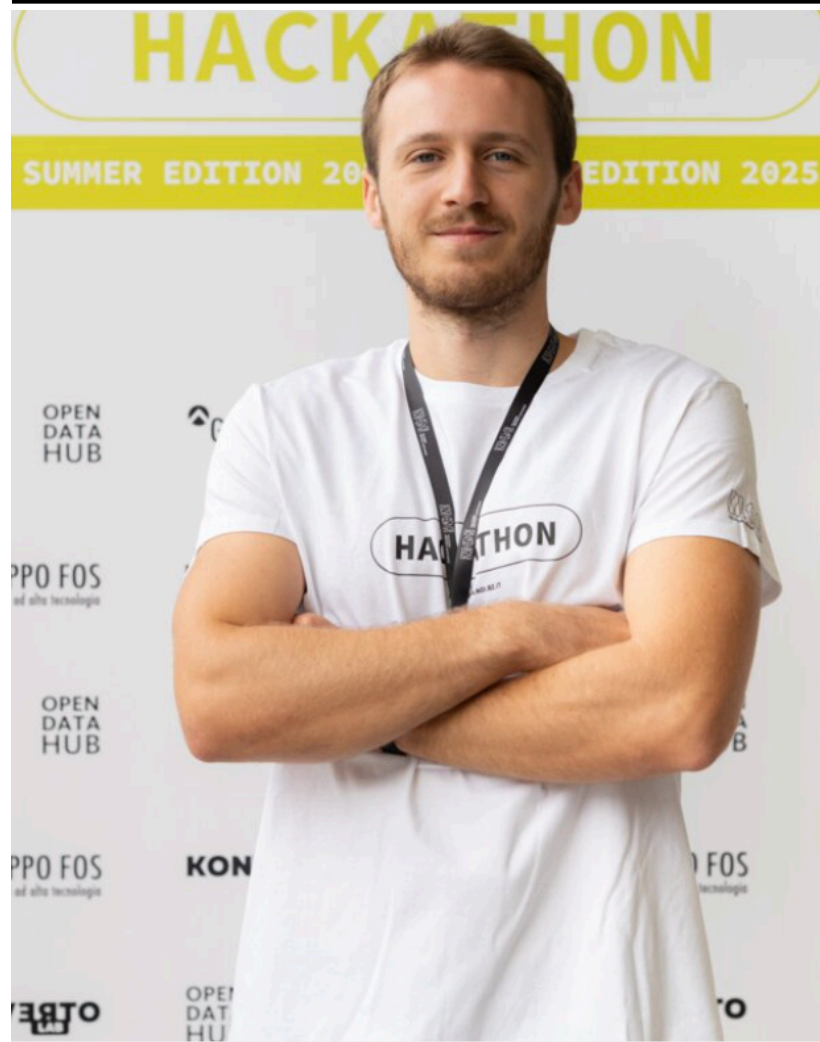

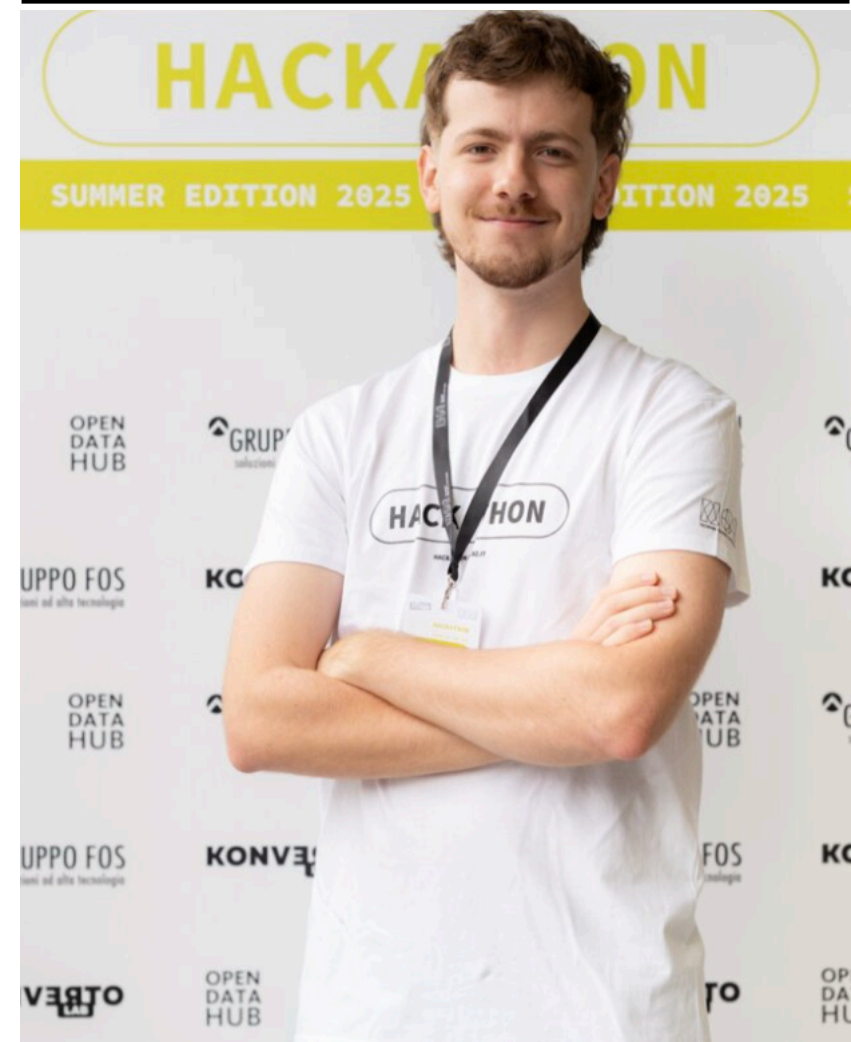

.the genius

.the friend of the genius

Technologies

Front-end: SvelteKit

Back-end: Deno (Typescript)

DB: SupaBase

APIs:
- Spotify
- YouTube
- Gemini AI

Problematics

```
// Leaked code from Spotify
function handle_incoming_request() {
    if (roll_dice() == 6) {
        throw Error('500 internal server error');
    } else {
        // Actual code...
    }
}
```

UI/UX Obsessed

How did we achieve a frictionless experience?

- Auto Login

  - Persistent sessions **without** credentials

- No Location Needed

  - **Privacy focused**

  - Security provided by QRcode

- **Less is More**

  - We meticulously analysed every single click
